

TM3838A

Feature

- Reflow solderable.
- Low impedance.
- Low profile and surface mountable MCF.
- This is achieved by using leadless type ceramic package.
- Frequency range **40 ~ 160 MHz**
- Automatic mount by tape and reel

Specifications (example)

SIZE	3.8 X 3.8 X 0.9 MM
Nominal Frequency	40 ~160 MHz
Pass Bandwidth	3.0 dB: ±15.0 KHz min.
Attenuation Bandwidth	10.0 dB: ±25 KHz min.
Pass-band Ripple	1.0 max. dB
Insertion Attenuation	3.0 max. dB
Group Delay Time	10 max. (µs): f ₀ ±13.0 kHz
Impedance	870 (Ω) // -1.5 (pF)
Operating Temperature range	(-20~85°C)

Products with specific requirements are available upon request.
