

7,0 x 5,0 mm SMD MCF

Feature

- Reflow solderable.
- Low impedance.
- Low profile and surface mountable MCF.
- This is achieved by using leadless type ceramic package.
- Frequency range **20 ~ 245 MHz (fund ; 3rd OT)**
- Automatic mount by tape and reel

Specifications (example)

SIZE	7,0 X 5,0 X 1,0 MM
Nominal Frequency	20 ~245 MHz
Pass Bandwidth	3.0 dB: ±16.0 KHz min.
Attenuation Bandwidth	20.0 dB: ±58 KHz min.
Pass-band Ripple	1.3 max. dB
Insertion Attenuation	2.5 max. dB
Impedance	950 (Ω) // -1.6 (pF)
Operating Temperature range	(-20~85°C)

Products with specific requirements are available upon request.
