

## 6,0 x 3,5 mm SMD MCF

### Feature

- Reflow solderable.
- Low impedance.
- Low profile and surface mountable MCF.
- This is achieved by using leadless type ceramic package.
- Frequency range **25 ~ 160 MHz**
- Automatic mount by tape and reel

### Specifications (example)

SIZE	6,0 X 3.5 X 1,0 MM
Nominal Frequency	25 ~160 MHz
Pass Bandwidth	3.0 dB: ±14.0 KHz min.
Attenuation Bandwidth	15.0 dB: ±50 KHz min.
Pass-band Ripple	1.0 max. dB
Insertion Attenuation	3.5 max. dB
Impedance	740 (Ω) // -1.2 (pF)
Operating Temperature range	(-20~85°C)

Products with specific requirements are available upon request.
