

## Frequency Switchable SMD Clock Oscillators HC53

### Features

- HC53 Clock Oscillator features frequency switching function
- Two different clock related from the same oscillator
- Custom frequencies and application are most welcome

### Specifications

Item	Symbol	Specification
Output type		C-MOS, square wave
Frequency	$f_o$	1.0 – 200. MHz
Supply voltage	$V_{cc}$	+/- 1.8 V +/- 10% / +2.5 V +/- 10%, +3,3 V +/- 10%
Package dimension	Mm	5.0 x 3.2 x 1.2

- Please consult us for customized specifications.

HC53 Package Dimensions and Recommended Pad Layout unit mm[inches]

“HC53” series 5x3.2 mm

Wave Form: CMOS, Square wave
